Dear Ms. Darcy,

I am writing to express my interest in the internship position at SoftSquare Group as advertised. With a strong background in software engineering and a passion for software development, I am excited about the opportunity to contribute to your team and gain valuable industry experience.

I am currently studying at Nakhon Pathom Rajabhat University (NPRU), majoring in software engineering. During my studies, I have developed a solid foundation in programming languages such as **Java** and **React**, and I have honed my skills in **web design using Figma**. My coursework has provided me with practical knowledge in software development, data structures, and algorithms. Additionally, I have worked on several projects where I collaborated with peers to design and implement software solutions, which enhanced my problem-solving skills and ability to work effectively in a team.

I am particularly drawn to SoftSquare Group due to your commitment to innovation and excellence in software solutions. I am eager to learn from your experienced team and contribute to ongoing projects, bringing my analytical skills and creativity to the table. In my free time, I enjoy playing board games, particularly Warhammer 40k and Magic: The Gathering, which have taught me strategic thinking and attention to detail—skills that I believe are valuable in software development.

I have attached my resume, which provides additional details about my academic achievements and project experiences. I am looking forward to the possibility of discussing how my skills and experiences align with the goals of SoftSquare Group. Thank you for considering my application.

Sincerely,  
Nattavut Kaewmaha
